

MEDIA STREAMING WITH IBM CLOUD VIDEO STREAMING

PHASE-4

A.V.R.RESIKA,
R.EYARKAI KAMALI,
T.HEMA,
V.RAJAPUSHPAM,
C.POORNIMA.

Create a New Event:

Look for an option to create a new event. This option may vary in terms of labeling, but typically, it's labeled as "Create Event," "New Event," or something similar.

Configure Event Settings:

You'll be presented with a form to configure your video event. This form typically includes settings like event title, description, privacy settings, and date/time settings.

Fill in the necessary information:

Title: Give your event a name.

Description: Add a brief description of the event.

Privacy Settings: Choose whether the event will be public, unlisted, or private.

Date and Time: Set the date and time for your event.

Additional settings: Depending on your subscription level, you may have more options such as password protection, monetization, and others.

Upload or Connect Your Video Source:

You will need to provide the video source for your event. This can be done in several ways:

Upload Video: You can upload a pre-recorded video to be played during the event.

Live Stream: If you want to broadcast live, you can configure your live streaming encoder settings. IBM Video Streaming typically supports a variety of encoders like OBS, Wirecast, or hardware encoders.

Event Landing Page:

You may have the option to customize the event landing page with branding, additional information, and chat functionality. Configure this to your liking.

Preview and Confirm:

Review your event settings and make sure everything is set up correctly.

Save and Start the Event:

Once you're satisfied with your event settings, save your event and start it. This may involve clicking a "Save" or "Go Live" button.

Monitor and Interact:

While your event is live, you can monitor viewer statistics, engage with your audience, and manage any technical issues that may arise.

End the Event:

When your event is over, make sure to properly end the broadcast or recording.

Create a New Event:

Look for an option to create a new event. This option may vary in terms of labeling, but typically, it's labeled as "Create Event," "New Event," or something similar.

The screenshot shows the 'Create event' form in the IBM Video Streaming interface. The left sidebar contains a navigation menu with options: Overview, Channel (selected), Videos, Playlists, Off-air content, Events (highlighted), Sharing, Embedding, Channel info, Broadcast settings, Security, Geographic filtering, Interactivity, Channel page settings, Player settings, and Caption settings. The main content area is titled 'Events / Create event' and includes a description: 'Events are displayed on the Channel page under the Upcoming events tab.' The form fields are as follows:

Field	Value
Event title	LETS DANCE
Event time zone	Asia/Calcutta
Event start	10/24/2023 09:49 PM
Event end	10/24/2023 09:50 PM
Repeat	Never
Event description

Interactivity in channel settings:

Video manager in video settings:

The screenshot shows the IBM Video Streaming dashboard. The left sidebar contains navigation links: Overview, Channel, Broadcasting tools and apps, Video manager (selected), Account, Integration & apps, Metrics & monitoring, and Live CTA. The main content area has a header with a warning: "Your Video Streaming trial expires in 19 days. Viewing of live streams during trial is limited to the broadcaster. Upgrade to a Video Streaming plan to broadcast with advanced features." with a link to "Upgrade to a Video Streaming plan". Below this is the "Videos" section, which includes a storage status bar showing "You are using 0 GB / 500.00 GB video storage" and a link to "Need more storage?". There is a search bar with the placeholder "Enter keywords and labels" and a "Search" button. Below the search bar are filters for "Publish", "Label", and "More", and a "Sort by: Last" dropdown. A table lists videos with columns: TITLE, CHANNEL, LABELS, DATE, LENGTH, and VIEWS. The table contains one row: "DANCE-1", "CAD_MSP", "Published", "10/15/2023", "00:18", and "11". At the bottom of the table, it says "Show videos: 50" and "1-1 of 1".

Setting profile for our account :

The screenshot shows the IBM Video Streaming dashboard with the "Profile" section selected in the left sidebar. The main content area has a header with the same trial expiration warning as the previous screenshot. Below this is the "Profile" section, which includes a "Your picture" area with a placeholder image, a "Choose File" button, and a "No file chosen" message. There is also a checkbox for "Delete my user picture". A "Save" button is located below the picture area. At the bottom of the dashboard, there is a footer with links for Contact, Privacy, Terms of use, Accessibility, Copyright Policy, Cookie preferences, Terms and conditions for IBM Video Streaming, and Acceptable use policy. There is also a "Choose language" dropdown menu set to "Asia Pacific".
